## Lecture Capture and Publication consent

For videos that will be freely available

From time to time the Nuffield Department of Medicine records seminars. These videos are used to promote the Department and to create a record of activities.

We would like your permission to do the following:

- Record your presentation/seminar using Panopto/Replay Lecture Capture system.
- Apply only limited editing.
- Make the resulting video available on the NDM website and other video hosting sites, for non-commercial, educational or research purposes.

I agree to my seminar/presentation being used in this way.
